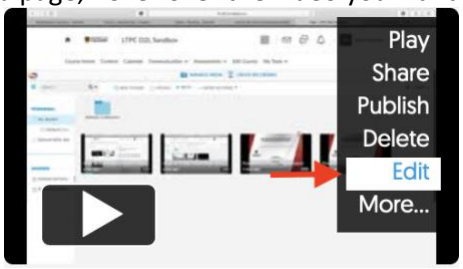
How to Blur Faces on Yuja

By Anna Pletnyova

Video Link:

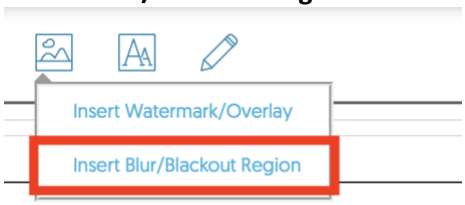
The instructions show how to blur faces on Yuja. You can blur videos created on Yuja or simply upload your video on Yuja using these instructions Upload external content on Yuja and then follow the steps below to blur faces on videos.

1. On your Yuja page, hover over the video you want to edit and click on **Edit.**

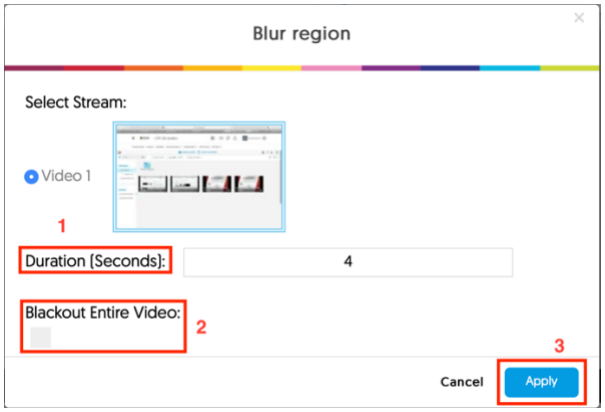


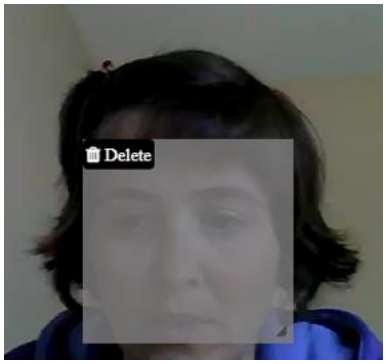
2. On the **Video Editor** window, click on Image Tools on the editing toolbar.

3. Next choose **Insert Blur/Blackout Region**.



4. On the opened window, insert the **Duration (seconds)** to blur out or click on **Blackout Entire Video** to black out everything (not advisable).





5. This will open up a dark square on your video. Move the square to the part of the video you want to blur out. You can also enlarge or reduce the size of the square and also **delete** the square (button on the top left corner of the dark square.
